Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Motoyama et al. (U.S. Patent No. 6,099,992). With regard to Claim 1, Motoyama discloses a semiconductor device (column 1, lines 8-10) comprising:

a wiring pattern (34a-34c) and a plurality of dummy patterns (35a-35c) different from the wiring pattern (column 10, lines 24-25); and

an insulating film (36) formed on the wiring pattern and the dummy patterns by a chemical vapor deposition method and planarized by CMP (column 10, lines 31-34). *[It should be noted that the limitation "by a chemical vapor deposition and planarized by CMP" is a product-by-process limitation which does not patentably or structurally distinguish the claimed invention from that disclosed by Motoyama. Furthermore, the presence of process limitations on product claims, which product does not otherwise patentably distinguish over prior art, cannot impart patentability to the product. In re Stephens 145 USPQ 656 (CCPA 1965).]*

wherein the dummy patterns, are provided with pattern non-forming regions having a width filled by plus sizing of the insulating film upon formation of the insulating film (column 10, lines 49-65 and figure 9E).

Art Unit: 2815

With regard to Claim 2, Motoyama discloses pattern non-forming regions of the dummy regions (35a-35c) are formed in stripe-form (see figure 9E).

With regard to Claim 3, Motoyama discloses pattern non-forming regions of dummy regions (22) are formed in character or graphical form (see figures 5A- 5E which disclose another embodiment).

With regard to Claim 4, Motoyama discloses pattern non-forming regions of dummy regions (22) are formed in character or graphical forms different (22e-22i) every said dummy patterns (see figures 5A-5E).

With regard to Claim 5, Motoyama discloses dummy patterns (22) that are square-shaped (see figures 5A-5E).

With regard to Claim 6, Motoyama discloses dummy patterns (22) that are arranged in lattice-form (column 7, lines 29-39).

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edgardo Ortiz whose telephone number is 571-272-1735. The examiner can normally be reached on Monday-Friday (1st Friday Off).

Art Unit: 2815

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas can be reached on 571-272-1664. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
